

Clockwise Corners

I can recognise and move in clockwise and anticlockwise turns.

Follow Hickory's route through the maze to the clock. Colour the clockwise turns in green and colour the anticlockwise turns in red.

The maze is a 10x10 grid with several black walls. A blue path starts at a mouse on the left edge (row 5, column 1) and ends at a clock on the right edge (row 8, column 10). The path consists of the following segments and turns:

- Start at (5, 1) and move right to (5, 4). At (5, 4), a clockwise turn arrow is shown.
- Move right to (5, 8). At (5, 8), an anticlockwise turn arrow is shown.
- Move down to (6, 8). At (6, 8), a clockwise turn arrow is shown.
- Move left to (6, 5). At (6, 5), an anticlockwise turn arrow is shown.
- Move down to (7, 5). At (7, 5), a clockwise turn arrow is shown.
- Move left to (7, 3). At (7, 3), an anticlockwise turn arrow is shown.
- Move down to (8, 3). At (8, 3), a clockwise turn arrow is shown.
- Move right to (8, 10). At (8, 10), an anticlockwise turn arrow is shown.
- Move down to (9, 10). At (9, 10), a clockwise turn arrow is shown.
- End at the clock at (10, 10).

Clockwise Corners

I can recognise and move in clockwise and anticlockwise turns.

Follow Hickory's route through the maze to the clock. Colour the clockwise turns in green and colour the anticlockwise turns in red.

The maze is a 10x10 grid with a blue path starting from a mouse on the left and ending at a clock. The path consists of the following segments and turns:

- Start at the mouse (row 5, column 1).
- Move right to (row 5, column 3).
- Turn clockwise (arrow pointing right).
- Move up to (row 4, column 3).
- Turn anticlockwise (arrow pointing left).
- Move right to (row 4, column 4).
- Turn clockwise (arrow pointing down).
- Move down to (row 5, column 4).
- Turn anticlockwise (arrow pointing left).
- Move left to (row 5, column 6).
- Turn clockwise (arrow pointing down).
- Move down to (row 6, column 6).
- Turn anticlockwise (arrow pointing left).
- Move left to (row 6, column 8).
- Turn clockwise (arrow pointing down).
- Move down to (row 7, column 8).
- Turn anticlockwise (arrow pointing left).
- Move left to (row 7, column 10).
- Turn clockwise (arrow pointing down).
- Move down to (row 8, column 10).
- Turn anticlockwise (arrow pointing left).
- Move left to (row 8, column 9).
- Turn clockwise (arrow pointing down).
- Move down to (row 9, column 9).
- Turn anticlockwise (arrow pointing left).
- Move left to (row 9, column 7).
- Turn clockwise (arrow pointing down).
- Move down to (row 10, column 7).
- Turn anticlockwise (arrow pointing left).
- Move left to (row 10, column 5).
- Turn clockwise (arrow pointing down).
- Move down to (row 11, column 5).
- Turn anticlockwise (arrow pointing left).
- Move left to (row 11, column 3).
- Turn clockwise (arrow pointing down).
- Move down to (row 12, column 3).
- Turn anticlockwise (arrow pointing left).
- Move left to (row 12, column 1).
- End at the clock.
