

Year 1. Week 14.

Thank you so much for uploading all the learning on Seesaw. It was lovely to see all the learning and activities they were doing during the week.

Below is a list of new learning ideas for this week. Please try and do as much as possible. Have fun!

Reading

Here are lots of books which you can read online:

<https://home.oxfordowl.co.uk/books/free-ebooks/>

- I have also included reading activities. The children have to follow the instructions and colour in the pictures. We have done lots of activities like this in class before so the children should know what to do!
- I have also attached a 'Tricky Word Challenge'. The children have to use the first letter of the pictures to spell out a tricky word. See if you can complete the challenge.

Keep reading through your books on [Active Learn Primary](#). Please tell me if you need more books and I will try to add some more for you.

Phonics

Username: march20

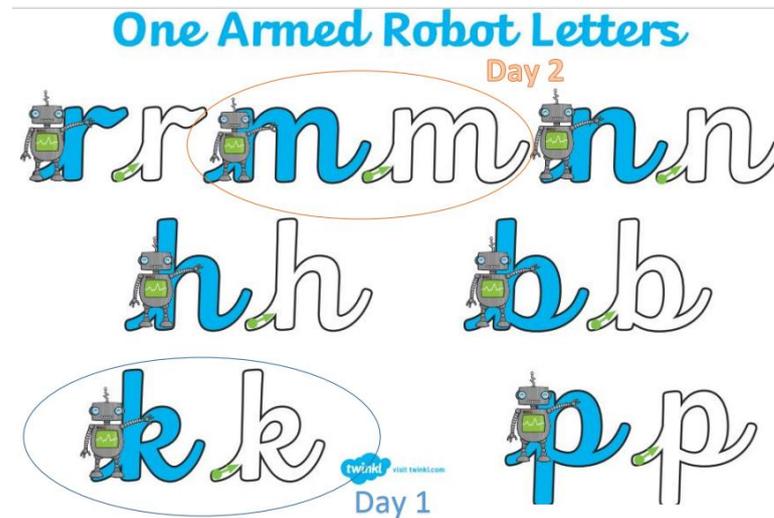

Password: home

Here are lots of phonics games to practice your sounds.

I have attached a real words and nonsense words game for the children to play.

Handwriting

The children are going to be focusing on their cursive handwriting by practicing the letters:

Literacy Writing

This week, the children are going to be:

1. Looking at a historical mystery about missing pirate gold. They will need to look through the PowerPoint and then they need to solve the mystery. They can write their own ideas about what might have happened. I hope they enjoy this little investigation.

Maths

Our topic is about 'Time'.

- I have added lots of different problem-solving ideas that they can solve.
- I also have added an art activity where they can try and make their own clocks.

Come and See

Our new topic is 'Neighbours'.

I have attached lots of different activities and PowerPoints too:

1. Children are to decorate the world and write around it why the world is special.
2. Write a message to a friend talking about why they are such a good neighbour.
3. Ask the children to produce a poster their own to represent the main areas of need (food, water, shelter, health, education) for our global neighbour.

PE

Cosmic Yoga for kids on YouTube is a great way of keeping active!

If you haven't started already, Joe Wicks does fantastic exercises every day at 9am on his YouTube. It is hard work but so much fun! Everyone can join in.

Art

'Art Hub for Kids' on YouTube is an amazing resource which shows you how to draw different designs. Have a go at creating different masterpieces!

Circus Themed

There is also an art lesson whereby the children will be creating a self-portrait based on the work of Picasso. The children will have to use only shapes to create their design, however, they are only allowed to use the shapes once. Have fun!

Topic

We are going to have a circus party to celebrate the end of our topic. The children can practice their juggling skills, they could eat circus food etc.

I have also added an art activity where the children can make an ice cream to take to the performance.

Paddington went on another adventure. Perhaps, the children could write about his adventures.

Please continue to upload the learning onto your Seesaw journal. Thank you so much for all the support and the work that you are doing with the children at home. Please keep us updated about what they are getting up to as it is always so lovely to see their learning.

I hope you have a fantastic week and keep up the great work!
