

Year 1. Week 1.

Hello. Year 1. Hope you have had a good weekend.

This is the list of work that I have attached for the first week. Please do not feel that you need to complete all of it but I thought it would be a good idea to write down lots of different ideas; both practical and written and then you can choose. You also don't have to print off all these activities. You could just answer these questions in a notebook or a piece of paper at home. Have fun with learning this week!

Reading

Here are lots of books which you can read online:

<https://home.oxfordowl.co.uk/books/free-ebooks/>

You do need to make your own little login but it is free!!! If you go into their E-Library, then you can select books to read. Keep reading every day!

Phonics

<https://www.phonicsplay.co.uk/>

Phonics Play have made their own login for parents to use:

Username: march20

Password: home

Here are lots of phonics games to practice your sounds.

Focus on Phase 3, 4 and 5 as these are the ones that they learn and revise in our phonics lessons.

We play these games all the time in class so the children will be able to recognise them, e.g. the pirate game, the alien game, the dragon game and flashcards.

I have attached a list of our sounds and our tricky words that you can practice at home.

Writing

For writing, we are going to look at the book 'There's a Monster in your Book'. Link below for the book:

<https://www.youtube.com/watch?v=mvXxMatTgao&safe=true>

Linking it to our topic; you are going to describe how there is a 'Minibeast in your Home Learning book'. You can describe the insect – it can be made up – and how you are going to get the insect out of your book!

I have attached different ideas that you can work through to complete this writing, including my PowerPoint slides.

Maths

For maths, we have been learning about **measuring height, weight and capacity**. You could measure different objects around your house and say how many centimetres, grams and millilitres they are.

I have attached some measuring sheets that you could complete.

Also, White Rose Maths has a fantastic 'Home Learning' page which focuses on our topic. It has fun activities and games you could play:

<https://whiterosemaths.com/homelearning/year-1/>

Top marks is a fantastic website with amazing games for the children to play (and it is free!):

<https://www.topmarks.co.uk/Search.aspx?Subject=16&AgeGroup=2>

Come and See

For Come and see, we are looking at the story of Palm Sunday and Good Friday. Perhaps, you order the pictures to retell the stories or you could make an Easter Garden outside. I will attach these sheets.

PE

Cosmic Yoga for kids on YouTube is a great way of keeping active!

Art

The children really enjoyed learning to draw great characters using the YouTube guides 'Art with Kids Hub'. It would be fantastic to create some designs and you could put them around your house or in your windows to show the neighbours.

Topic – Flowers and Insects

In our topic, we have been focusing on flowers and the different parts of a flower so you can see if draw them and start to label the flower, the roots, the stem and the leaves. I have attached a sheet if you would like to start labelling the flower. You could even look out for 'Evergreen' and 'Deciduous' Trees.

Twinkl.co.uk is an amazing resource which has hundreds of learning ideas or just ideas to keep the children entertained.

Here a picture of what Paddington got up to at school:

Perhaps, you could write a little story about his adventure.

I hope this overview helps! Keep working hard! Have a good week.

Thank you!

From

Miss Bennett.
