

LO: To be able to plan
the middle of the story.

The middle of the story is normally where a problem happens.

But every problem is followed by a solution. What are they?

Problem:
Bad Weather

What is the
solution?

PROBLEM: Meet a princess who has lost something.

What is the solution?

PROBLEM: You get lost!

What is the solution?

PROBLEM: You
meet a dragon.
What is the
solution?

**PROBLEM: There's
a evil witch!
What is the
solution?**

PROBLEM: You
cannot get into
the castle.
What is the
solution?

You are going to think of the problems your character might face in your story and how it is solved.

For example, Jack meets a giant. But, he then chops down the beanstalk so the giant cannot get down.

When finished, check your work for capital letters, full stops and finger spaces.

If you have done that, go through your marking.

If you get stuck, use these pictures to help you with ideas.
