

For this lesson, there is a new
'imaginary' member of the class...

You will need to make sure that your kitten has a comfortable bed to sleep on and a scratching post, so that it can sharpen its claws as it grows up.

You need to choose the best materials to make the cat bed and the scratching post.

Find materials around your house and decide which ones work best for a cat bed or cat scratching post.

E.g. Would wood from the table be a good material for the cat bed?

Write the materials and then describe
how the material feels.
